

Jonny Whittle

Curriculum Vitae

Introduction

Energetic and imaginative young web developer, who has an eye for great design and user experience and an attitude to succeed. From graduating The University of Bolton with a 2:1 degree in Graphic Design in 2020. I have taken on a Diploma in Software Development with Code Institute to enhance my skills ready for a career in the industry.

Experience

Jan 2022 -
Present

Leigh Festival

Leigh Festival was created by me and my friend. With the aim of getting the community back together after Covid.

Key Responsibilities

- Create a simple to use website people could use to find all information about the festival.
- Manage a team of volunteers in planning and throughout the weekend.
- Create and manage social media and printed artwork e.g. Banners.

Key Achievements

- Over 1000 tickets sold online.
- Website had over 25,000 hits in total.

Oct 2020 -
Present

Front End Developer

I created my own business to answer the question of how small pubs will manage with the table service only rule. I had to develop my skills in CSS, HTML and JS. Me and a friend set out to create personalised table service websites, I focused on the UI and UX, whereas he worked on the back-end development.

Key Responsibilities

- Being able to sell the first prototype to our first client.
- To create an easy to use layout for both customers and staff.
- Work and manage my team to make sure we stuck to our deadlines.

I am continually looking for improvements, whether that be in the design or functionality of the websites.

Key Achievements

- Implemented new responsive system which increased sales by 22%.
